Award Winning Heating

Residential Gas Central Heating Engineers

Salary: £36K to £46K based on skills and experience

Hours: Full Time/ Permanent

Benefits: PAYE Benefits • Company Pension • Fully expensed Van & Fuel • Work wear • Company iPhone & app • Office admin support • Skills growth training • Annual leave

Location: Located within 10 miles of SE20, London

We're an award award-winning gas heating services provider in South London and we're looking for exceptional domestic Gas Central Heating Engineers to join our team.

We aim to operate in an organised, friendly and hassle-free environment, that promotes growth and supports work and personal life balance.

Successful applicants will be experts in residential gas heating installations, boiler replacements, service & maintenance and all other aspects of central heating works.

If you're a talented gas engineer who loves what they do, we'd like to hear from you!

If you're an expert in...

- Delivering high quality boiler & central heating system installations in residential properties
- Providing service, certs and maintenance on all domestic gas heating appliances
- Always providing exceptional customer service
- Online paperwork using the supplied iPhone and app
- Keeping the van organised, clean and well maintained

Award Winning Heating

And you also...

- Always deliver top, quality work and excellent customer service
- Have 8yrs+ experience in private, residential gas central heating installations & boiler replacements
- Deliver beautiful, clean & tidy pipe work
- Have experience with servicing, repair and maintenance of residential gas appliances
- Have required up-to-date domestic gas qualifications
- Have great references
- Are professional, punctual, courteous and presentable
- Have full UK driving licence (no more than 6 points)
- Have complete tool kit
- Follow all recommended health & safety practices
- Are comfortable with use of iPhone, apps & mail
- Want to be part of an award-winning team and be rewarded

Then, you're the **talented engineer** we're looking for,
